InViz AI Solutions [🔗](#)
06/2019 - 01/2020 Bengaluru
We work with some of the world's most trusted and loved companies and help them build a meaningful relationship with their audience.
 - Achievements/Tasks**
 - Integrating the Backend apis with the Frontend. I've worked with multiple teams in cross-functional applications which shows that I'm a good team player.
 - Implemented various User Interfaces for Real-time projects. Added various functionalities like Login and Register with the APIs provided. I also made working Modals. I have also learned debugging skills.
 - Leveraged knowledge in Full Stack Web Development, JavaScript, Git, React.JS, Redux, Python, Data Science

SKILLS

- JavaScript
- React
- REST API
- Webpack
- Redux
- Data Structures
- HTML5/CSS3

PERSONAL PROJECTS

- crwn-clothing (01/2021 - Present) [🔗](#)
 - An E-Commerce application currently in work in progress.
 - I used Scss, ReactJS till now to make reusable components and made a better folder structure, and configured Firebase for storing data and for authentication purposes.
 - In the coming days, would be implementing some more key concepts in this project like Redux, Context API, Junit testing, GraphQL, etc in this personal full-stack project.
- Streams (10/2019 - 11/2019) [🔗](#)
 - Streams is a live streaming platform for users, giving the users the ability to create unlimited Streams/Channels they can stream to. Users can also Edit, Update, Delete, and at the same time can view the Specific Stream.
 - Used Real-Time Messaging Protocol server and Open Broadcaster software for streaming videos.
 - Used flv.js for displaying the flash real-time videos in this redux application.

CERTIFICATES

- SNCK19 [CODE CHEF] (03/2019 - Present) [🔗](#)
The aim of SnackDown is to pit the finest programming brains from different parts of the globe against each other, under one roof in India.
